

# Annual Maintenance Contract

Custom Instrumentation  
Services Corporation

## Overview

CISCO CEMS is dedicated to servicing your CEM systems through our Annual Maintenance Contract. This package includes one (1) site visit to your plant to perform any required maintenance, cleaning and repairs based on the CEMS Preventative Maintenance Schedule for the year. The length of the site visit is tailored to match your plant's needs to ensure the quality our services.

## Services Include:

- CEMS Evaluation and Testing
- General Cleaning and Service
- Replacement of Consumable Items
- Function Verification of Essential Components
- Rebuild or Replacement of Essential Components, if Necessary
- Function Verification of Calibration Systems
- Verification and Adjustment of Pressure and Flow Settings
- Standard Leak Checks
- Other Specified General Maintenance
- System Recommendations
- Daily Field Service Reports
- Updated Customer Maintenance Logs, if Applicable

## Customer Service

We ensure your needs are met by keeping the lines of communication open and offering high-quality services through our clean and professional Field Service Technicians. Confidentiality and discretion are maintained where warranted.

## Pricing

For pricing, please send us a request for quote to [orders@ciscocems.com](mailto:orders@ciscocems.com). Our team members are ready to answer any questions and assist you in securing any arrangements.
